

Sexual Violence Prevention Education Group
for Individuals with Disabilities

Of the most frequent crimes against people with disabilities, more than 90% are sexual offenses.
(Carmody, M., 1991)

This is an open and ongoing education group that covers a variety of topics that are related to the prevention of sexual violence. The goal of this program is to teach participants the skills and information they need to keep themselves safe and get help if necessary.

A separate group for parents and guardians will run at the same time and include similar information to enable them to continue these conversations at home.
